FIRE DEPARTMENT IS CALLED OUT

PILE OF RUBBISH CAUSED LARGE AMOUNT OF SMOKE.

A fire alarm was sounded which called the department to the vicinity of the sub-station of the Nevada-California Power Company. The fire was found to be a pile of rubbish saturated with coal oil and this caused a large quantity of smoke, which at a distance looked like a real conflagration.

ROUND MOUNTAIN'S GREAT OUTLOOK

PARTY LEAVES FOR SCENE OF VERY RICH STRIKE.

James R. Davis, the heaviest owner in the Round Mountain Mining Company and also president of the company, spent a few hours in Tonopah yesterday on his way to Round Mountain. Mr. Davis came from Goldfield in his Pope-Hartford auto, which has done yeoman service over the Nevada deserts during the past year, and left Tonopah at noon for the scene of the latest rich strike in Nevada. Mr. Davis had as guests, J. P. Sweeney, also a heavy owner in the property, and Fred Siebert, a noted mining engineer and former superintendent of the Tonopah Mining Company, and brother-in-law of Senator T. L. Oddie.

Mr. Sweeney has visited Round Mountain at least a score of times in the past and though heavily interested in Goldfield, where he made his fortune, says that he believes Round Mountain has the makings of one of the best camps and one that will be permanent—a camp that will hold its own with any yet discovered in Nevada.

In talking with a Bonanza representative yesterday, Mr. Sweeney said: "I have just returned from a visit to San Francisco, and while there I heard of the sensational strikes in Round Mountain. That camp stands, to use a sporting parlance, 'ace high' in the estimation of the brokers and investors of San Francisco. As I am quite heavily interested in the camp, I concluded to return and see for myself what had been uncovered on the Antelope ground. I was not in town fifteen minutes before I heard that the new strike was the richest yet in the State of Nevada."

Mr. Siebert, who accompanied the party, is a mining engineer of note, and he goes to report on the district and upon the various properties which Messrs. Loftus and Davis are interested in. As he was about to enter the auto at the Merchants hotel yesterday he stated that although this is his first trip to Round Mountain, he goes there with a feeling of confidence that the camp has a great future. He said:

"I have never visited Round Mountain before, but many friends of mine, including many eminent mining engineers, have told me that Round Mountain not only has the richest specimen, or, as it is commonly called, picture ore, but it also has well defined ledges of what might be termed high grade milling ore, the values running \$50 to the ton."

Mr. Davis was asked as to the future intentions of the Round Mountain Company, but he declined to express himself further than to say:

"We are grinding out the ore day and night in our mill; we have several ledges, one of which was uncovered within two feet of the surface, and the others at depth. There appears to be a network of ledges in that district and they run in every direction. Really, I do not care to make any further statement; we have never referred to our properties in the newspapers, having no desire to advertise them as we have no stock to sell. We have great faith in the future of Round Mountain, and in our main shaft we have today a well defined ledge with strong walls at a depth of over four hundred feet, with values that would certainly please the best mining engineer on earth."

"While I am a resident of Goldfield and have many interests there, I consider that Round Mountain has the makings of one of the best camps in the State of Nevada."

"Our party is going to Round Mountain to see the new strike and also to look over the ground of our holdings. Round Mountain today is a cynosure of many Eastern eyes and Eastern capital is seeking investment in that section."

J. W. Travers received a telephonic message from his partner, Henry Bartlett, last night, in which the latter stated that the ledge in the new strike is two and one-half feet wide and in that ledge there is a pay streak that will run into the thousands of dollars in values, of from eight to twelve inches in width. This is on the Paulson-Blaisdell lease, and is about one hundred feet from the spot where the big slab of gold—the greatest ever extracted from mother earth—was taken from, on March 7, 1906. This "nugget" now rests in the safe of C. C. Boak, in the Soller building in this city, and Mr. Boak takes pleasure in showing it to his many friends.

REASONS FOR CLOSING ROAD.

There has been some little complaint by people living in the vicinity of the West End shaft No. 2, by the closing of the trail near the mine. Supt. Corkill states that the reason of the closing is that the guy rope of the smoke stack of the hoist extends across the road and some of the people who are using the road might run against it and receive serious injuries and he is looking out for their welfare.

BROKERS VISIT RAWHIDE MINES

ARE ASTOUNDED AT WHAT THEY SAW IN THE NEW CAMP

RAWHIDE, March 16.—A special to the Reno Journal says: Ten automobiles arrived from Schurz today, five of which contained the brokers and their friends from San Francisco. The visitors had a busy day of it, and there was no hesitancy on their part in climbing the hills or footing over the ground to see for themselves the wonders of which they had read. They were taken to the top of Balloon Hill, and then carried over to the Royal Tiger Hill. They went down into a number of shafts and panned and got gold to their hearts' delight.

Al Hudgens, one of the party, was one of the early timers at Tonopah and also at Goldfield. No one was more enthusiastic than he over what he saw.

"Rawhide has all the marks of a great camp," said he. "In Tonopah we had considerable ore from the grassroots, but this was only over a small area. Goldfield could never compare with this camp for showings. Rawhide has the older camp beaten at any mark in the road. I have put in a great part of the day in the hills and I am going to put in all tomorrow. I am much more interested than I ever thought to be, for I have seen some wonderful showings, and I know that I will see more."

The visitors surely saw a camp in all the glory of a boom tonight. The Northern, Tex Rickard's saloon, of which they had all heard, was opened this afternoon, and ever since the place has been almost impassable. The saloon was reminiscent of the boom days of Goldfield when stocks were soaring and high grading was in vogue. A surging mass of men of all descriptions filled the floor, wallied in the bar and put the games almost beyond reach.

Among those in the party were Jeremiah Lynch, the San Francisco capitalist; E. B. Bowles, the banker; J. R. Morton, the Kern county oil man; J. P. Flynn, who has taken up a permanent abode in Rawhide; L. Strauss, the tobacco man; L. Kullman, Dr. A. G. Hudgens, N. T. Franklin, J. V. Kimball, Trust Officer Campbell of the Metropolitan Bank of San Francisco; J. H. Berghofer, George Lamb, who has mining interests in Ballarat, Australia, as well as in America; C. A. Macomber, of the Redwood Lumber Company, who will look after business interests in the new camp; P. J. Lynch, "Count" von Rossen, W. B. Gorton, L. E. LeBlanc of Oakland, W. H. Locke of Morehead and Company, Cincinnati, who will make arrangements to run a leased wire into the new camp, besides other representative business men and brokers of the bay city, who were attracted by the stories of the fabulous wealth of Rawhide.

RESUME WORK ON HOTEL TODAY

MIZPAH WILL BE RAPIDLY RUSHED TO COMPLETION.

George Holesworth, the contractor, returned from Goldfield on Sunday. In speaking of the resumption of work on the Mizpah building, Mr. Holesworth said that a contract was let yesterday afternoon to W. E. Lindsay for the completion of the plumbing and steam fitting and that the work will commence this morning and the building will be rapidly rushed to completion. Mr. Holesworth, who has formerly had his headquarters in Goldfield, will now make Tonopah his stopping place.

BUSY DAY IN DISTRICT COURT

SCOTT WOMAN FOUND GUILTY AND NIBLITT IS SENTENCED.

In the District Court yesterday, William Nibblitt, the negro who was found guilty on Saturday of selling liquor to Indians, was sentenced to serve eighteen months in the State penitentiary. In passing sentence, the court took under consideration the recommendation of mercy made by the jury.

In the case of the State vs. Mary Scott, charged with selling liquor to Indians, the jury returned a verdict of guilty and also recommended mercy, as the defendant is over seventy-five years old. The jury were out only twelve minutes when the verdict was reached. Sentence will be pronounced Thursday morning.

The case of the State vs. Fred Skinner was postponed until next Monday as the defense has failed to locate certain witnesses.

The case of the State vs. Wawich was continued until today.

MAN THOUGHT HE HAD GRIEVANCE

HIT FOREMAN OF JIM BUTLER IN THE EYE AND GOES TO JAIL.

Joe Bush, charged with disturbing the peace, was up before Judge Brissell yesterday afternoon and was found guilty and fined \$100, with the alternative of fifty days in the county jail. Owing to the lack of the necessary \$100, Mr. Bush took the alternative. He was formerly employed at the Jim Butler mine and a few days ago was discharged, and yesterday while under the influence of liquor, approached James Heney, foreman of the mine, and handed him a Joe Walcott right square in the eye. It seems that Bush was laboring under the delusion that Heney was in some way responsible for his being discharged from the mine.

BARTLETT CHILDREN FULLY RECOVERED

Margaret and Dorothy Bartlett, daughters of Congressman and Mrs. George A. Bartlett, who have been suffering from an attack of ptomaine poisoning for the past four days, have now fully recovered. Dr. Grissim, who was called in, was able to state today that the children are once more enjoying perfect health.

NEW LEASING COMPANY.

Zeb Kendall and W. B. Pittman have organized the Rawhide Mining and Leasing Company. This new corporation has purchased the lease adjoining the famous lease of Grutt Hill, which produced \$10,000 with one shot. Four men are working on the lease and it is reputed to be one of the best leases in the Rawhide district.

INTERESTED IN GWEENAH.

W. B. Pittman, Vall Pittman and Walter Lamb have become interested in the new district of Gweenah, near Austin. They expect great things from their holdings, as the assays run high and the ledges are big and strong.

We don't keep the best, or give you the best, but we sell you the best, and the man with 15c gets the same goods and service and is just as welcome as the millionaire at the Nevada Club. 3-14-6t
